

PERMANENT SMALL TATTOOS, REIMAGINED

CipherX Microdot Tattoo Technology.
A fundamentally new way of tattooing.
Applied in minutes. No pain.
Minimal aftercare. Designed for a wide range of skin types.

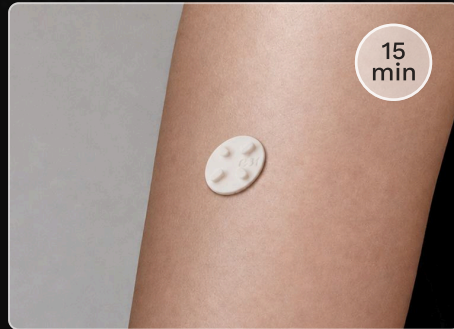

HOW IT WORKS

STAMP

A trained CX staff member applies the Microdot Tattoo Patch to your skin with an applicator.

WAIT

The Patch remains on your skin for ~15 min as the tattoo develops.

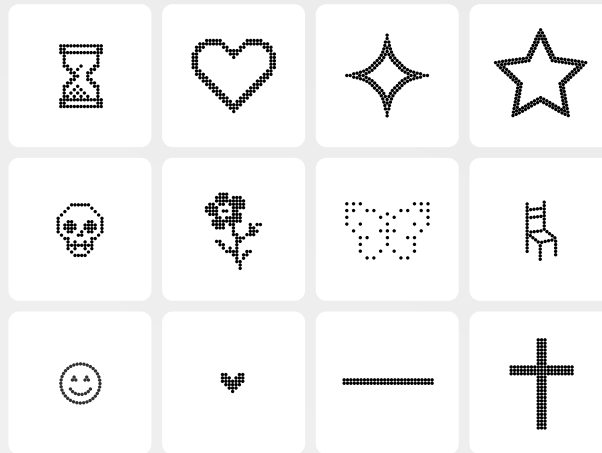

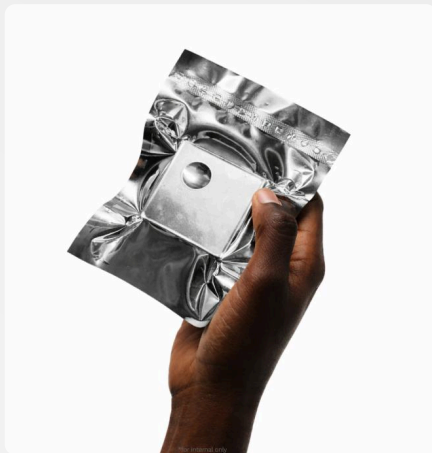

REVEAL

The Patch is removed, the tattoo site cleaned and your tattoo revealed.

AVAILABLE TATTOOS

Designs are shown at actual size (approx. 0.5 - 2.0 cm)

PRICING

Tattoos from

£50
